

## HAZARDOUS AREA

Class I, Groups A, B, C, D  
Class II, Groups E, F, G  
Class III  
FEC 12 in T3  
Ex-proof enclosure

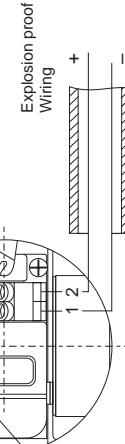

Input  
30 Vdc  
120 mA  
Output  
4-20 mA  
Ex-d barrier  
Module

FEC 12 in T3  
Ex-proof enclosure

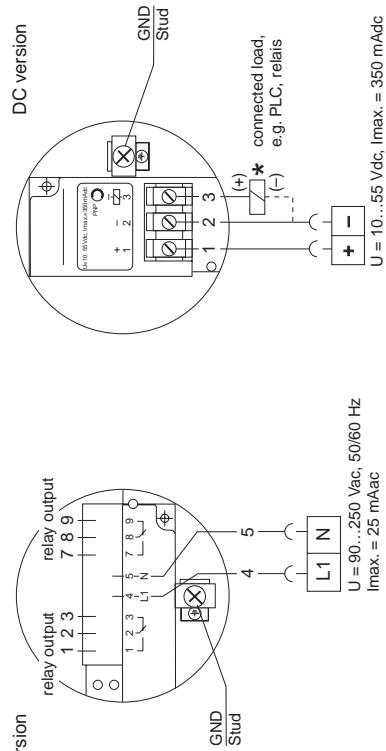

Input  
30 Vdc  
120 mA  
Output  
4-20 mA  
Ex-d barrier  
Module

Div. 1 Explosion proof  
installation

Conduit and seal (No external barrier)

DC version

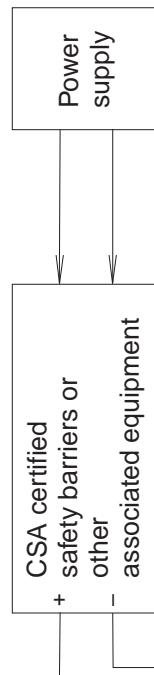

$U = 90 \dots 250 \text{ Vac}, 50/60 \text{ Hz}$   
 $I_{max.} = 25 \text{ mAac}$

relay contacts rated  
250 Vac, 6 A, 1500 VA at PF=100  
30 Vdc, 6 A, 125 Vdc, 0.2 A  
Explosion proof wiring

Conduit and seal (No external barrier)

## NON HAZARDOUS AREA

Intrinsically safe installation

Notes  
1. Control room equipment may not use or generate over 125 Vrms.  
2. Install per the Canadian electrical code

3. Warning: Substitution of components may impair intrinsic safety.  
Avertissement: La substitution de composants peut compromettre la sécurité intrinsèque.  
Warning: open circuit before removing cover.  
Avertissement: Ouvrir le circuit avant de enlever le couvercle.

4. Ex ia is defined as intrinsically safe / sécurité intrinsèque.

5. For entity installation  
use CSA certified safety barrier or other associated equipment  
that satisfy the following conditions:  $V_{oc} \leq V_{max}$ .  $I_{sc} \leq I_{max}$ .  
 $C_a \geq C_i + C_{cable}$ .  $L_a \geq L_i + L_{cable}$

Transmitter entity parameters are as follows:

$V_{max}$ (V)	$I_{max}$ (mA)	$C_i$ (nF)	$L_i$ ( $\mu$ H)
30	120	20	0

6. For system installation

Use CSA certified safety barriers as follows:

- (a) 28 V / 300  $\Omega$  + Ground or
- (b) 28 V / 300  $\Omega$  + 28 V / Diode or
- (c) 28 V / 300  $\Omega$  + 10 V / 50  $\Omega$

Division 2 installation

1. Install per Canadian electrical code using threaded metal conduit.  
2. Warning: Explosion hazard - do not disconnect equipment unless power has been switched off or the area is known to be non-hazardous.  
Avertissement: Risque d'explosion - avant de déconnecter l'équipement, couper le courant ou s'assurer que l'emplacement est désigné non dangereux.

Warning: Explosion hazard - substitution of components may impair suitability for Class I, Division 2.  
Avertissement: Risque d'explosion - la substitution de composants peut rendre ce matériel inacceptable pour les emplacements de Classe I, Division 2.

Div. 1 Explosion-proof installation

Probes DC12T are certified for Class I, Groups B, C, D, Class II, Groups E, F, G, Class III and Type 4X enclosure only.

Class II Installation

Partially insulated probes model Multicap and Multicap T are certified for Class II, Group G and coal dust, Class III and Type 4X enclosure only.
