

Company **Endress+Hauser SE+Co. KG, Hauptstrasse 1, 79689 Maulburg**

declares as manufacturer,

that all products manufactured and delivered from any of the following sites of Endress+Hauser Level+Pressure: E+H LP DE (Germany), E+H LP BR (Brazil), E+H LP IN (India), E+H LP CN (China), E+H LP US (USA) or E+H LP JP (Japan) have the same and well defined Endress+Hauser quality. The basis for this is our global quality and sourcing strategy, which states:

"The quality of our products has to be the same in whichever of our sites it is produced and independent from the country of origin from which any component is sourced."

To guarantee this, we have implemented the following processes in the above-mentioned sites:

- All sites are part of the Integrated Management System of the headquarters in Maulburg, Germany and are maintained under the scope of our matrix certification for ISO 9001, ISO 14001 and ISO 45001 which is valid worldwide
- The same standards apply for assembly, testing and calibration as in Maulburg, Germany
- The same manufacturing procedures are implemented and maintained
- All calibration rigs are designed, constructed and built in Maulburg, Germany
- All calibration rigs are commissioned in the sites under the management of Maulburg, Germany personnel.
- Quality managers and inspectors of all sites are trained in Maulburg, Germany to the same processes and standards
- The same production control system (SAP) is being used
- Incoming goods inspection, first article inspection etc. are performed according to processes, specifications and to criteria defined centrally in Maulburg, Germany
- Suppliers who produce pressure bearing parts are certified by an accredited body
- All suppliers who produce flanges must be approved according to the European Pressure Equipment Directive (PED) and the AD2000 W0
- The supplier approval process is standardized, and supplier auditors follow a defined qualification program ensuring the same auditing level in all entities
- Regular and ongoing audits are maintained
- If re-stamping is necessary, each supplier must follow the technical requirements for 3.1 marking

This declaration of compliance is exclusively valid for the products in delivery status.
