are in conformity with the following regulation:

Regulation **NSF/ANSI/CAN 372: Drinking Water System Components – Lead Content**

The products are listed for NSF/ANSI/CAN 61 standard including annual laboratory evaluation. The material screening for lead content is part of this testing procedure and passed successfully. Therefore, the requirements of standard 372 are fulfilled with the listing according to standard 61 and no further evaluation is required according to chapter 3.1 of standard 372.

Additional information:

The product must be cleaned before use, as appropriate for the application. This declaration of conformity emphasizes that the customer is obliged to test the product regarding its suitability in the application. This declaration of conformity is exclusively valid for the listed products as supplied to customer and without any further modification. Since the conditions of use are beyond Endress+Hauser's control, Endress+Hauser makes no warranties, expressed or implied, and assumes no liability in connection with any use of this declaration.

This declaration of compliance refers to the compliance of the mentioned materials with the listed regulations. No further suitability of the products for a specific purpose shall be derived from this.
