

Company Endress+Hauser Flowtec AG, Christoph Merian-Ring, CH-4153 Reinach, Switzerland
declares as manufacturer, for the following products

Product Promag H 10, 5HB***-;
Promag P 10, 5PB***-;
Promag W 10, 5WB***-;
Promag D 10, 5DB***-;

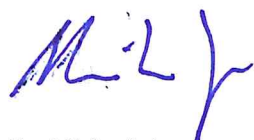

Statement Endress+Hauser hereby confirms that the minimum conductivity specification for the above products has been reviewed and updated. The previously stated value of 20 $\mu\text{S}/\text{cm}$ for demineralized water is no longer applicable.

Promag 10 is officially specified for operation with a minimum conductivity of 5 $\mu\text{S}/\text{cm}$ for all applicable liquids, including demineralized water. This update reflects the current performance capabilities of the device and supersedes the earlier documentation.

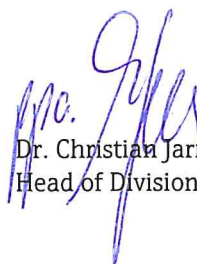

This declaration serves as an interim confirmation of the improved specification. A formal update of the official product documentation is planned and will follow in due course.

This declaration applies only for the listed product(s) and expires 2 years after date of issue.
