CERTIFICATE OF COMPLIANCE

HAZARDOUS LOCATION ELECTRICAL EQUIPMENT PER CANADIAN REQUIREMENTS

This certificate is issued for the following equipment:

CNGmass 8aF bb-cdddefghijkl+###. Compact Mass Flowmeter.

XP-IS / I / 1 / ABCD / T* Ta = 60°C — FES0123; Type 4X;

I / 1 / Ex d ia IIC T* Ta = 60°C — FES0123; Type 4X;

DIP-IS / II, III / 1 / EFG / T* Ta = 60°C — FES0123; Type 4X

*Reference control drawing for temperature class

a = Version: any single number or letter.

bb = Nominal Diameter: 08, 15, or 25.

c = Measuring Tube Material: any single number or letter
(representing stainless steel or alloy C-22).

ddd = Process Connection: — any single number or letter.

e = Additional Test, Certification: — any single number or letter.

f = Calibration Massflow, Density: — any single number or letter.

g = Approval: M, N or 8.

h = Housing: A.

i = Cable Entry: 0, A, or B.

j = Power supply / Display: 1.

k = Custody Transfer Approval: — any single number or letter.

l = Output / Input: N.

** = Option in two digits (none, two or multiple of two digits): any
combination of number or letter.

+, # = Signs used as indicator for optional abbreviation of extended
order code.

CNGmass 8aF bb-cdddefghijkl+###. Compact Mass Flowmeter.

NI / I / 2 / ABCD / T* Ta = 60°C — FES0155; Type 4X;

DIP / II, III / 1 / EFG / T* Ta = 60°C — FES0155; Type 4X

*Reference control drawing for temperature class

a = Version: any single number or letter.

bb = Nominal Diameter: 08, 15, or 25.
 c = Measuring Tube Material: any single number or letter
 (representing stainless steel or alloy C-22).
 ddd = Process Connection: – any single number or letter.
 e = Additional Test, Certification: - any single number or letter.
 f = Calibration Massflow, Density: – any single number or letter.
 g = Approval: R.
 h = Housing: A.
 i = Cable Entry – See Control Drawing FES0155.
 j = Power supply / Display: 1.
 k = Custody Transfer Approval: – any single number or letter.
 l = Output / Input: N.
 ** = Option in two digits (none, two or multiple of two digits): any
 combination of number or letter.
 +, # = Signs used as indicator for optional abbreviation of extended
 order code.

LPGmass 8aE bb-cdddefghijkl+###. Compact Mass Flowmeter.

XP-IS / I / 1 / ABCD / T* Ta = 60°C — FES0123; Type 4X;
 I / 1 / Ex d ia IIC T* Ta = 60°C — FES0123; Type 4X;
 DIP-IS / II, III / 1 / EFG / T* Ta = 60°C — FES0123; Type 4X

*Reference control drawing for temperature class

a = Version: any single number or letter.
 bb = Nominal Diameter: 08, 15, 25, 40, or 50.
 c = Measuring Tube Material: any single number or letter
 (representing stainless steel or alloy C-22).
 ddd = Process Connection: – any single number or letter.
 e = Additional Test, Certification: - any single number or letter.
 f = Calibration Massflow, Density,: – any single number or letter.
 g = Approval: M, N or 8.
 h = Housing: A.
 i = Cable Entry: 0, A, or B.
 j = Power supply / Display: 1.
 k = Custody Transfer Approval: – any single number or letter.
 l = Output / Input: N
 ** = Option in two digits (none, two or multiple of two digits): any
 combination of number or letter.
 +, # = Signs used as indicator for optional abbreviation of extended
 order code.

LPGmass 8aE bb-cdddefghijkl+###. Compact Mass Flowmeter.

NI / I / 2 / ABCD / T* Ta = 60°C — FES0155; Type 4X;
 DIP / II, III / 1 / EFG / T* Ta = 60°C — FES0155; Type 4X;

*Reference control drawing for temperature class

a = Version: any single number or letter.
 bb = Nominal Diameter: 08, 15, 25, 40, or 50.
 c = Measuring Tube Material: any single number or letter
 (representing stainless steel or alloy C-22).
 ddd = Process Connection: – any single number or letter.
 e = Additional Test, Certification: - any single number or letter.
 f = Calibration Massflow, Density: – any single number or letter.
 g = Approval: R.
 h = Housing: A.
 i = Cable Entry: See Control Drawing FES0155.

- j = Power supply / Display: 1.
- k = Custody Transfer Approval: – any single number or letter.
- l = Output / Input: N
- ** = Option in two digits (none, two or multiple of two digits): any combination of number or letter
- +, # = Signs used as indicator for optional abbreviation of extended order code.

Cubemass 8Ca bb-ccdefghijklm+###. Compact Mass Flowmeter.

XP-IS / I / 1 / ABCD / T* Ta = 60°C — FES0123; Type 4X;
 I / 1 / Ex d ia IIC T* Ta = 60°C – FES0123; Type 4X
 DIP-IS / II, III / 1 / EFG / T* Ta = 60°C — FES0123; Type 4X;

*Reference control drawing for temperature class

- a = Version: any single number or letter.
- bb = Nominal Diameter: 01, 02, 04 or 06.
- cc = Approval: C3 or 84
- d = Output / Input: B.
- e = Power supply: B.
- f = Display / Operation: any single number or letter.
- g = Operation Language: any single number or letter
- h = Housing: A or B.
- i = Cable Entry: 0, A or B.
- j = Measuring tube material: any single number or letter (representing stainless steel or alloy C-22).
- k = Process connection: any single number or letter.
- l = Secondary Containment: any single number or letter.
- m = Calibration: any single number or letter
- ** = Option in two digits (none, two or multiple of two digits): any combination of number or letter.
- +, # = Signs used as indicator for optional abbreviation of extended order code.

Cubemass 8Ca bb-ccdefghijklm+###. Compact Mass Flowmeter.

NI / I / 2 / ABCD / T* Ta = 60°C — FES0155; Type 4X;
 DIP / II, III / 1 / EFG / T* Ta = 60°C — FES0155; Type 4X;

*Reference control drawing for temperature class

- a = Version: any single number or letter.
- bb = Nominal Diameter: 01, 02, 04 or 06.
- cc = Approval: C4
- d = Output / Input: B.
- e = Power supply: B.
- f = Display / Operation: any single number or letter.
- g = Operation Language: any single number or letter
- h = Housing: A or B.
- i = Cable Entry: see Control Drawing FES0155.
- j = Measuring tube material: any single number or letter (representing stainless steel or alloy C-22).
- k = Process connection: any single number or letter.
- l = Secondary Containment: any single number or letter.
- m = Calibration: any single number or letter
- ** = Option in two digits (none, two or multiple of two digits): any combination of number or letter.
- +, # = Signs used as indicator for optional abbreviation of extended order code.

Equipment Ratings:

CNGmass series, LPGmass series and Cubemass series Mass Flowmeters as Explosionproof for use in Class I, Division 1, Group A, B, C and D and Dust-Ignitionproof for use in Class II, III, Division 1, Group E, F and G, in accordance with control drawing FES0123; and Nonincendive for use in Class I, Division 2, Groups A, B, C and D, in accordance with control drawing FES0155, for indoor/ outdoor hazardous (classified) locations, utilizing Type 4X enclosure. Reference the control drawing for products temperature class.

And

CNGmass series, LPGmass series and Cubemass series Mass Flowmeters as Class I, Zone 1, Ex d ia Group IIC, IIB, & IIA, utilizing Type 4X enclosure. The installation of the products should be in accordance with control drawing FES0123. Reference the control drawing for products temperature class.

Marked as "Dual Seal" in accordance with ANSI/ISA-12.27.01.

FM Approved for:

Endress+Hauser Flowtec AG
CH-4153 Reinach BL 1, Switzerland

This certifies that the equipment described has been found to comply with the following Approval Standards and other documents:

Notes:

1. Electronics compartment of transmitter enclosure is explosion proof for use in Cl. I Div. 1 Groups A, B, C, D and dust-ignitionproof for Cl. II Div. 1 Groups E, F, G, Class III.
2. Transmitter enclosure is factory sealed for use in Cl. I Div. 1 Groups A, B, C, D, conduit seal not required. Terminal compartment is suitable for wiring methods for Class I, Div. 2.
3. CNGmass is a dual seal rated device. LPGmass, version with rupture disk, is a dual seal rated device.
4. Class I Division 2 Groups ABCD, Class II Division 1 Groups EFG and Class III
Flow meter with cable entry M20x1.5 thread, NPT1/2" thread, NPT 3/4" thread:
 - Install all per NEC ANSI/NFPA 70 and use supply wires suitable for 10 °C / 18 °F above ambient temperature.
 - Class II Group G: The surface temperature of the apparatus cannot exceed 165 °C / 329°F
5. Class I Division 2 Groups ABCD
Flow meter with FM approved receptacles (plug-in connector) suitable for Class I, Div. 2 installation.
 - Install per NEC ANSI/NFPA 70
 - Install tool secured guard on the connection to render the connection normally not arcing.
6. Class I Division 2 Groups ABCD
Flow meter with pig tail or plug-in connector using listed installation components (cable gland or seal, cable/wire and connector)
 - Special condition of use:
Shall be installed in compliance with the enclosure, mounting, spacing and segregation requirements of the ultimate application, including a tool removable cover.
 - The flow meter is installed as a fixed installation device that is intended to be mounted in an enclosure, meeting the requirements for general purpose, where the approved equipment will be installed. All unused openings should be closed off. Installation shall be with the manufacturer's installation and operation manual.

CERTIFICATE OF COMPLIANCE

HAZARDOUS (CLASSIFIED) LOCATION ELECTRICAL EQUIPMENT

This certificate is issued for the following equipment:

CNGmass 8aF bb-cdddefghijkl+##*. Compact Mass Flowmeter.

XP-IS / I / 1 / ABCD / T* Ta = 60°C — FES0122; Type 4X;

I / 1 / AEx d ia IIC T* Ta = 60°C — FES0122; Type 4X;

DIP-IS / II, III / 1 / EFG / T* Ta = 60°C — FES0122; Type 4X;

*Reference control drawing for temperature class

a = Version: any single number or letter.

bb = Nominal Diameter: 08, 15, or 25.

c = Measuring Tube Material: any single number or letter
(representing stainless steel or alloy C-22).

ddd = Process Connection: — any single number or letter.

e = Additional Test, Certification: — any single number or letter.

f = Calibration Massflow, Density: — any single number or letter.

g = Approval: M, N or 8.

h = Housing: A.

i = Cable Entry: 0, A, or B.

j = Power supply / Display: 1.

k = Custody Transfer Approval: — any single number or letter.

l = Output / Input: N.

** = Option in two digits (none, two or multiple of two digits): any
combination of number or letter.

+, # = Signs used as indicator for optional abbreviation of extended
order code.

CNGmass 8aF bb-cdddefghijkl+###. Compact Mass Flowmeter.

NI / I / 2 / ABCD / T* Ta = 60°C — FES0153; Type 4X;
DIP / II, III / 1 / EFG / T* Ta = 60°C — FES0153; Type 4X;

*Reference control drawing for temperature class

a = Version: any single number or letter.

bb = Nominal Diameter: 08, 15, or 25.

c = Measuring Tube Material: any single number or letter
(representing stainless steel or alloy C-22).

ddd = Process Connection: – any single number or letter.

e = Additional Test, Certification: - any single number or letter.

f = Calibration Massflow, Density: – any single number or letter.

g = Approval: R.

h = Housing: A.

i = Cable Entry – See Control Drawing FES0153.

j = Power supply / Display: 1.

k = Custody Transfer Approval: – any single number or letter.

l = Output / Input: N.

** = Option in two digits (none, two or multiple of two digits): any combination of number or letter.

+, # = Signs used as indicator for optional abbreviation of extended order code.

LPGmass 8aE bb-cdddefghijkl+###. Compact Mass Flowmeter.

Notes:

1. Electronics compartment of transmitter enclosure is explosion proof for use in Cl. I Div. 1 Groups A, B, C, D and dust-ignitionproof for Cl. II Div. 1 Groups E, F, G, Class III.
2. Transmitter enclosure is factory sealed for use in Cl. I Div. 1 Groups A, B, C, D, conduit seal not required. Terminal compartment is suitable for wiring methods for Class I, Div. 2.
3. CNGmass is a dual seal rated device. LPGmass, version with rupture disk, is a dual seal rated device.
4. Class I Division 2 Groups ABCD, Class II Division 1 Groups EFG and Class III
Flow meter with cable entry M20x1.5 thread, NPT1/2" thread, NPT 3/4" thread:
 - Install all per Canadian Electrical Code and use supply wires suitable for 10 °C / 18 °F above ambient temperature.
 - Class II Group G: The surface temperature of the apparatus cannot exceed 165 °C / 329°F
5. Class I Division 2 Groups ABCD
Flow meter with FM/CSA approved receptacles (plug-in connector) suitable for Class I, Div. 2 installation.
 - Install per Canadian Electrical Code
 - Install tool secured guard on the connection to render the connection normally not arcing.
6. Class I Division 2 Groups ABCD
Flow meter with pig tail or receptacles (plug-in connector) using listed installation components (cable gland or seal, cable/wire and/or connector)
 - Special condition of use:
Shall be installed in compliance with the enclosure, mounting, spacing and segregation requirements of the ultimate application, including a tool removable cover.
 - The flow meter is installed as a fixed installation device that is intended to be mounted in an enclosure, meeting the requirements for general purpose, where the approved equipment will be installed. All unused openings should be closed off. Installation shall be with the manufacturer's installation and operation manual.
