Endress+Hauser

People for Process Automation Version 5 (replaces version 4)

Revision: 23.10.2024

# **SECTION 1: Identification of the substance or mixture and of the supplier**

#### **Product identifier**

Trade name: <u>cleaner CY820 acid</u> Synonym: cleaning concentrate

Article number: CY820-1+T1\_T2

Recommended use of the chemical and restrictions on use No further relevant information available.

Application of the substance / the mixture Cleaning agent/ Cleaner Laboratory chemicals

Supplier's details Manufacturer/Supplier: Endress+Hauser Conducta GmbH+Co. KG Dieselstraße 24 D-70839 Gerlingen

Further information obtainable from: Phone: +49 (0)7156 209-10117 E-Mail: MSDS.PCC@endress.com

Emergency phone number +27 (0)861 555 777

## **SECTION 2: Hazard identification**

#### Classification of the substance or mixture

Met. Corr. 1 H290 May be corrosive to metals.Skin Corr. 1A H314 Causes severe skin burns and eye damage.Eye Dam. 1 H318 Causes serious eye damage.

# **GHS** label elements

GHS label elements

The product is classified and labelled according to the Globally Harmonised System (GHS). Hazard pictograms

#### Signal word Danger

Hazard-determining components of labelling: Lactic acid Benzenesulfonic acid, 4-C10-13-sec-alkylderivs. Hazard statements May be corrosive to metals. Causes severe skin burns and eye damage. Precautionary statements IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower]. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor. Specific treatment (see on this label). Store locked up. Dispose of contents/container in accordance with local/regional/national/international regulations.

in accordance with SANS

Printing date 23.10.2024

Revision: 23.10.2024

#### Trade name: cleaner CY820 acid

Other hazards

The product does not contain any organic halogen compounds (AOX), nitrates, heavy metal compounds or formaldehydes.

Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable.

## **SECTION 3: Composition or information on ingredients**

## Mixtures

Description: Mixture of substances listed below with nonhazardous additions.

Dangerous components:			
CAS: 77-92-9	citric acid	5-10%	
EINECS: 201-069-1	♦ Eye Irrit. 2, H319; STOT SE 3, H335		
CAS: 50-21-5	Lactic acid	5-10%	
EINECS: 200-018-0	♦ Skin Corr. 1B, H314; ♦ Eye Irrit. 2, H319; STOT SE 3, H335		
CAS: 85536-14-7	Benzenesulfonic acid, 4-C10-13-sec-alkylderivs.	2-6%	
EINECS: 287-494-3	♦ Skin Corr. 1A, H314; Eye Dam. 1, H318; ♦ Acute Tox. 4, H302		
Additional information. For the wording of the listed beyond physics refer to eaction 10			

Additional information: For the wording of the listed hazard phrases refer to section 16.

## **SECTION 4: First-aid measures**

Description of necessary first-aid measures

General information: Immediately remove any clothing soiled by the product.

After inhalation: In case of unconsciousness place patient stably in side position for transportation.

#### After skin contact:

Immediately wash with water and soap and rinse thoroughly. Immediately rinse with water.

After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor.

After swallowing: Drink plenty of water and provide fresh air. Call for a doctor immediately. Most important symptoms or effects, acute and delayed No further relevant information available.

Indication of immediate medical attention and special treatment needed, if necessary No further relevant information available.

### **SECTION 5: Fire-fighting measures**

Suitable extinguishing media

Suitable extinguishing agents:

CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

For safety reasons unsuitable extinguishing agents: no further information

#### Specific hazards arising from the chemical

During heating or in case of fire poisonous gases are produced. **Special protective actions for fire fighters** No further relevant information available. **Protective equipment:** Mount respiratory protective device.

## **SECTION 6: Accidental release measures**

#### Personal precautions, protective equipment and emergency procedures

Mount respiratory protective device. Wear protective equipment. Keep unprotected persons away. Wear protective clothing. Environmental precautions: Dilute with plenty of water.

Do not allow to enter sewers/ surface or ground water.

Page 2/8

in accordance with SANS

Printing date 23.10.2024

Version 5 (replaces version 4)

#### Trade name: cleaner CY820 acid

Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Use neutralising agent. Dispose contaminated material as waste according to section 13. Ensure adequate ventilation. Reference to other sections

See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

# **SECTION 7: Handling and storage**

#### Precautions for safe handling

Ensure good ventilation/exhaustion at the workplace. Prevent formation of aerosols. Information about fire - and explosion protection: Keep respiratory protective device available.

Conditions for safe storage, including any incompatibilities

Storage:

Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Not required. Further information about storage conditions: Keep container tightly sealed. Storage class: 8 B Specific end use(s) No further relevant information available.

# **SECTION 8: Exposure controls or personal protection**

#### **Control parameters**

Ingredients with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

Additional information: The lists valid during the making were used as basis.

#### **Exposure controls**

Appropriate engineering controls *No further data; see section 7.* Individual protection measures, such as personal protective equipment (PPE)

#### General protective and hygienic measures:

Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing Wash hands before breaks and at the end of work. Avoid contact with the eyes. Avoid contact with the eyes and skin.

### **Respiratory protection:**

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device.

#### Hand protection

Protective gloves

To avoid skin problems reduce the wearing of gloves to the required minimum. Only use chemical-protective gloves with CE-labelling of category III. The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

#### Material of gloves Nitrile rubber, NBR

Chloroprene rubber, CR The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several

#### Trade name: cleaner CY820 acid

substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

#### Penetration time of glove material

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

### Eye or face protection

Tightly sealed goggles

Body protection: Protective work clothing

## **SECTION 9: Physical and chemical properties**

Information on basic physical and chemical pro	perties
General Information	
Physical state	Fluid
Colour:	Colourless
Odour:	Characteristic
Odour threshold:	Not determined.
Melting point/freezing point:	0° 0
نقطة الغليان أو نقطة الغليان الأولية ونطاق الغليان	Undetermined.
Flammability	Not applicable.
Upper or lower flammability or explosive limits	
Lower:	Not determined.
Upper:	Not determined.
Flash point:	Not applicable.
Auto-ignition temperature:	1,010 °C
Decomposition temperature:	Not determined.
pH at 20 °C	<2
Viscosity:	_
Viscosity	Not determined.
Dynamic:	Not determined.
Solubility	
water:	Fully miscible.
Partition coefficient: n-octanol or water	Not determined.
Vapour pressure at 20 °C:	23 hPa
Vapour density + Relative density	23111 0
Density at 20 °C:	1.07 g/cm³
Relative density	Not determined.
Vapour density	Not determined.
vapour density	Not determined.
Other information	
Appearance:	
Form:	Fluid
Important information on protection of health	
and environment, and on safety.	
Ignition temperature:	Product is not selfigniting.
Explosive properties:	Product does not present an explosion hazard.
	Not determined.
Solvent content:	
Water:	83.0 %
Solids content:	0.0 %
Change in condition	
Evaporation rate	Not determined.

Printing date 23.10.2024

Trade name: cleaner CY820 acid

Information with regard to physical hazard classes				
Explosives	Void			
Flammable gases	Void			
Aerosols	Void			
Oxidising gases	Void			
Gases under pressure	Void			
Flammable liquids	Void			
Flammable solids	Void			
Self-reactive substances and mixtures	Void			
Pyrophoric liquids	Void			
Pyrophoric solids	Void			
Self-heating substances and mixtures	Void			
Substances and mixtures, which emit flammable				
gases in contact with water	Void			
Oxidising liquids	Void			
Oxidising solids	Void			
Organic peroxides	Void			
Corrosive to metals	May be corrosive to metals.			
Desensitised explosives	Void			

## **SECTION 10: Stability and reactivity**

Reactivity No further relevant information available. Chemical stability Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications. Possibility of hazardous reactions No dangerous reactions known. Conditions to avoid No further relevant information available. Incompatible materials: No further relevant information available. Hazardous decomposition products: No dangerous decomposition products known.

# **SECTION 11: Toxicological information**

Information on hazard classes as defined in Regulation (EC) No 1272/2008 Acute toxicity Based on available data, the classification criteria are not met.

LD/LC50 values relevant for classification:

CAS: 77-92-9 citric acid

Oral LD50 5,040 mg/kg (mouse)

CAS: 85536-14-7 Benzenesulfonic acid, 4-C10-13-sec-alkylderivs.

Oral LD50 1,350 mg/kg (rat)

Skin corrosion or irritation Causes severe skin burns and eye damage. Serious eye damage or irritation Causes serious eye damage. Information on other hazards

endocrine disrupting potential

None of the ingredients is listed.

## **SECTION 12: Ecological information**

Toxicity

Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available.

(Contd. on page 6)

(Contd. of page 4)

in accordance with SANS

Printing date 23.10.2024

Version 5 (replaces version 4)

Revision: 23.10.2024

#### Trade name: cleaner CY820 acid

(Contd. of page 5)

Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. Endocrine disrupting properties The product does not contain substances with endocrine disrupting properties. Other adverse effects Additional ecological information: General notes: Water hazard class 2 (German Regulation) (Self-assessment): hazardous for water Do not allow product to reach ground water, water course or sewage system. Must not reach sewage water or drainage ditch undiluted or unneutralised. Danger to drinking water if even small quantities leak into the ground. Rinse off of bigger amounts into drains or the aquatic environment may lead to decreased pH-values. A low pH-value harms aquatic organisms. In the dilution of the use-level the pH-value is considerably increased,

so that after the use of the product the aqueous waste, emptied into drains, is only low water-dangerous.

### **SECTION 13: Disposal considerations**

Waste treatment methods Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system.

**Uncleaned packaging:** 

**Recommendation:** Disposal must be made according to official regulations. **Recommended cleansing agents:** Water, if necessary together with cleansing agents.
