

Special Documentation Micropilot FWR30

Free space radar

A0040432

A0041762

The diagram shows three steps for sensor installation and data transfer. Each step is separated by a dashed line. Step 1 shows a sensor being placed on a pallet rack, with a green checkmark and a red X indicating correct and incorrect placement. Step 2 shows a sensor being placed on a pallet rack, with a question mark indicating uncertainty. Step 3 shows a sensor being placed on a pallet rack, with a question mark indicating uncertainty. Each step is followed by a smartphone and a QR code, indicating data transfer.
