UNITED KINGDOM CONFORMITY ASSESSMENT

UK-TYPE EXAMINATION CERTIFICATE

- 2 Equipment or Protective systems intended for use in Potentially Explosive Atmospheres –

UKSI 2016:1107 (as amended) – Schedule 3A, Part 1

- 3 Type Examination Certificate No: FM21UKEX0001X

- 4 Equipment or protective system:
(Type Reference and Name)
- Tank Gauge Radar Micropilot NMR81 and NMR84

- 5 Name of Applicant: Endress+Hauser SE+Co. KG

- 6 Address of Applicant:
- Hauptstrasse 1
79689 Maulburg
Germany

- 7 This equipment or protective system and any acceptable variation thereto is specified in the schedule to this certificate and documents therein referred to.

- 8 FM Approvals Ltd, Approved Body number 1725, in accordance with Regulation 42 of the Equipment and Protective Systems Intended for Use in Potentially Explosive Atmospheres Regulations 2016, UKSI 2016:1107 (as amended), certifies that this product has been found to comply with the Essential Health and Safety Requirements relating to the design and construction of products intended for use in potentially explosive atmospheres given in Schedule 1 of the Regulations.

The examination and test results are recorded in confidential report number:

3057382 – RR227003 dated 2nd April 2021

- 9 Compliance with the Essential Health and Safety Requirements, with the exception of those identified in item 15 of the schedule to this certificate, has been assessed by compliance with the following documents:

BS EN IEC 60079-0:2018, BS EN 60079-1:2014, BS EN 60079-11:2012, BS EN 60079-26:2015,
BS PD IEC/TS 60079-40:2015 and BS EN 60529:1992+A1:2000+A2:2013

- 10 If the sign 'X' is placed after the certificate number, it indicates that the equipment is subject to specific conditions of use specified in the schedule to this certificate.

- 11 This UK-Type Examination certificate relates only to the design, examination and tests of the specified equipment or protective system in accordance with the Regulations. Further requirements of the Regulations apply to the manufacturing process and supply of this product. These are not covered by this certificate.

Victor Aluko-Oginni
Certification Manager, FM Approvals Ltd.

SCHEDULE

to UK-Type Examination Certificate No. FM21UKEX0001X

- 12 The marking of the equipment or protective system shall include:

NMR81

- II 1/2 G Ex ia/db IIC T4...T1 Ga/Gb
II 2 (1) G Ex db [ia Ga] IIC T4...T1 Gb
II 1/2 G Ex ia/db IIC T6...T1 Ga/Gb
II 2 (1) G Ex db [ia Ga] IIC T6...T1 Gb

See Description Section below for Ambient Temperature Ranges.

NMR84

- II 1/2 G Ex ia/db IIC T6...T1 Ga/Gb
II 2 (1) G Ex db [ia Ga] IIC T6...T1 Gb

See Description Section below for Ambient Temperature Ranges.

- 13 **Description of Equipment or Protective System:**

General - The Tank Gauge Radar Micropilot NMR8x is used for the contactless, continuous measurement of liquids in hazardous areas with gas atmosphere. Two different types of transmitters are available, the NMR81 and NMR84, each with a different transmitter, antenna and working frequencies for different applications. Short microwave impulses are radiated from the antenna, reflected by the medium surface and picked up again by the antenna. The delay time between radiation and receiving is measured and converted into a signal to calculate the level.

Construction - The Tank Gauge Radar Micropilot NMR81 and NMR84 Series comprises a single compartment flameproof enclosure with a thread-on window cover — housing the display module, electronics assembly, radar module — along with a feedthrough and a process connector with antenna. NMR81 and NMR84 have a unique radar box, feedthrough, connection cable and antenna while they share the same enclosure, display and electronics assembly. The enclosure for NMR81 and NMR84 can be Aluminum or Stainless Steel, with 7 integral M20 sized field wiring entries. Integral threaded inserts allow for optional field wiring entry options including M25, ½ NPT or ¾ NPT.

The following enclosures and electronic modules may be used:

- Enclosure TRC[01-10-11] ALU C-Band
Enclosure TRC[01-20-11] ALU E- Band
Enclosure TRC[02-10-12] SS C-Band
Enclosure TRC[02-20-12] SS E- Band

- Module TRC[00] FP Front Plane Board
- Module TRC[01] PS_HV Power Supply, High Voltage
- Module TRC[02] PS_LV_AC Power Supply, Low Voltage, AC
- Module TRC[03] PS_LV_DC Power Supply, Low Voltage, DC
- Module TRC[10] MB Main Board,
- Module TRC[20] IOM_A IO Module Analog
- Module TRC[21] IOM_A IO Module Analog
- Module TRC[31] IOM_D IO Module Digital
- Module TRC[32] IOM_Mod_FF IO Module Modbus/FF
- Module TRC[33] IOM_V1_WM550 IO Module V1/WM550

Ratings - The Tank Gauge Radar NMR8x operates at 85-264 Vac (28.8 Volt-Amperes), 52-75Vac (21.6 Volt-Amperes) and 19-64Vdc (13.4 Watts). The transmitters are rated for use in an ambient temperature

range of -40°C to +60°C. The transmitter probes are rated for use in a process temperature range of -40°C to +200°C (NMR81) or -40°C to +150°C (NMR84). For further information regarding the Temperature Class and Ambient Temperature Ranges, refer to the temperature and configuration tables.

The enclosure of the Tank Gauge Radar NMR8x has an ingress protection rating of IP66 and IP68.

The Tank Gauge Radar NMR8x is evaluated as "Process Sealed" in accordance with BS PD IEC/TS 60079-40.

14 Specific Conditions of Use:

1. For Ambient Temperature Range refer to Safety Instructions document XA02422G.
2. An antenna coated with non-conductive material can be used if avoiding electrostatic charging (e.g. through friction, cleaning, maintenance, strong medium flow).
3. Flamepath joints are not for repair. Contact the manufacturer.
4. Use heat resisting cables rated $\geq 85^\circ\text{C}$ for $T_a > 50^\circ\text{C}$.
5. Precautions shall be taken to minimize the risk from electrostatic discharge of non-metallic labels, varnishes/coatings on the stainless steel 316L, and isolated metal tags applied to the enclosure.
6. To maintain the ingress protection ratings (IP66/68), Teflon tape or pipe dope is required for blanking plugs.
7. Ex d certified seals are required within 50 mm (2") on all used housing entries.

15 Essential Health and Safety Requirements:

In addition to the Essential Health and Safety Requirements covered by the standards listed at item 9, all other requirements are demonstrated in the confidential report identified in item 8.

THIS CERTIFICATE MAY ONLY BE REPRODUCED IN ITS ENTIRETY AND WITHOUT CHANGE

SCHEDULE

to UK-Type Examination Certificate No. FM21UKEX0001X

16 Test and Assessment Procedure and Conditions:

This UK-Type Examination Certificate is the result of testing of a sample of the product submitted, in accordance with the provisions of the relevant specific standard(s), and assessment of supporting documentation. It does not imply an assessment of the whole production.

Whilst this certificate may be used in support of a manufacturer's claim for UKCA Marking, FM Approvals Ltd accepts no responsibility for the compliance of the equipment against all applicable Regulations in all applications.

This Certificate has been issued in accordance with FM Approvals Ltd's UKCA Certification Scheme.

17 Schedule Drawings

A list of the significant parts of the technical documentation is annexed to this certificate and a copy has been kept by the Approved Body.
