Special Documentation

**M12 socket**

Accessories for devices with M12 plug

**Intended use**
These M12 sockets suit all devices that are fitted with M12 plugs, IP 66/68 NEMA Type 4x/6P.

**Overview**
Different versions of the M12 sockets are available:
- With a screw lock and termination via screw terminals, straight or elbowed
- With a cable, elbowed

**Personnel authorized to carry out repairs**
Technical staff must comply with the following requirements for repair, mounting, electrical installation and commissioning of the measuring devices:
- Specialized technical staff must be trained in instrument safety.
- They must be familiar with the individual operating conditions of the devices.
- In the case of Ex-certified measuring devices, they must also be trained in explosion protection.

Information: Technical staff carrying out work are responsible for ensuring that the work is carried out safely and to the required quality standard. They must also guarantee the safety of the device following repair.

**Safety instructions**
- Comply with national regulations governing mounting, electrical installation, commissioning, maintenance and repair procedures.
- For devices intended for use in hazardous locations, please observe the instructions in the Ex documentation (XA).
- Observe the Operating Instructions for the device.

Information: If you have any questions, please contact the Endress+Hauser Serviceorganisation responsible.
