# Dual Label — Fact Sheet

OTMT31 / F2058

The Endress+Hauser Dual Label version is a great way to personalize our products in a simple way. For the Dual Label version a generic product with standardized design and Endress+Hauser approvals is provided with a dedicated space on the nameplate for your additional customer and sales information.

## Area for customer information on the nameplate

DIN Rail:
Dimensions of customer area: 81 mm x 16 mm

People for Process Automation
