Endress+Hauser

People for Process Automation Version 3 (replaces version 2) Page 1/7

Revision: 31.03.2022

# SECTION 1: Identification of the substance/mixture and of the company/ undertaking

## **1.1 Product identifier**

Trade name: <u>Standard solution PO4-P</u> Synonym: 1000 mg/l

Article number: CAY248VxxC00AAE

**1.2 Relevant identified uses of the substance or mixture and uses advised against** *No further relevant information available.* 

Application of the substance / the mixture Laboratory chemicals

**1.3 Details of the supplier of the safety data sheet Manufacturer/Supplier:** *Endress+Hauser Conducta GmbH+Co. KG Dieselstraße 24 D-70839 Gerlingen* 

Further information obtainable from: Phone: +49 (0)7156 209-10117 E-Mail: MSDS.PCC@endress.com

1.4 Emergency telephone number: 0091-26589391

# **SECTION 2: Hazards identification**

2.1 Classification of the substance or mixture Classification according to Regulation (EC) No 1272/2008

Repr. 1B H360FD May damage fertility. May damage the unborn child.

Skin Corr. 1 H314 Causes s

Causes severe skin burns and eye damage. Causes serious eye damage.

# Eye Dam. 1 H318 2.2 Label elements

Labelling according to Regulation (EC) No 1272/2008 The product is classified and labelled according to the CLP regulation. Hazard pictograms

Signal word Danger

Hazard-determining components of labelling: boric acid
Hazard statements
H314 Causes severe skin burns and eye damage. H360FD May damage fertility. May damage the unborn child.
Precautionary statements
P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. according to 1907/2006/EC, Article 31

Printing date 31.03.2022

Version 3 (replaces version 2)

## **SECTION 3: Composition/information on ingredients**

#### 3.2 Mixtures

Description: Mixture of substances listed below with nonhazardous additions.

| ſ | Dangerous components: |                                                              |        |  |  |
|---|-----------------------|--------------------------------------------------------------|--------|--|--|
|   | CAS: 10043-35-3       |                                                              | 1-2.5% |  |  |
|   | EINECS: 233-139-2     | 🗞 Repr. 1B, H360FD                                           |        |  |  |
|   |                       | Špecific concentration limit: Repr. 1B; H360: $C \ge 5.5 \%$ |        |  |  |
| Ī | SVHC                  |                                                              |        |  |  |

CAS: 10043-35-3 boric acid

Additional information: For the wording of the listed hazard phrases refer to section 16.

## **SECTION 4: First aid measures**

4.1 Description of first aid measures

General information: Immediately remove any clothing soiled by the product.

After inhalation: In case of unconsciousness place patient stably in side position for transportation.

#### After skin contact:

Immediately wash with water and soap and rinse thoroughly. Immediately rinse with water.

After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor.

After swallowing: Drink plenty of water and provide fresh air. Call for a doctor immediately. 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.

**4.3 Indication of any immediate medical attention and special treatment needed** *No further relevant information available.* 

# **SECTION 5: Firefighting measures**

5.1 Extinguishing media
Suitable extinguishing agents:
CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
For safety reasons unsuitable extinguishing agents: no further information
5.2 Special hazards arising from the substance or mixture
During heating or in case of fire poisonous gases are produced.
5.3 Advice for firefighters No further relevant information available.
Protective equipment: Mount respiratory protective device.

(Contd. on page 3)

Revision: 31.03.2022

## Trade name: Standard solution PO4-P

Revision: 31.03.2022

(Contd. of page 2)

# SECTION 6: Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

Mount respiratory protective device.
Wear protective equipment. Keep unprotected persons away.
Wear protective clothing.
6.2 Environmental precautions: Dilute with plenty of water.
6.3 Methods and material for containment and cleaning up:
Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
Use neutralising agent.
Dispose contaminated material as waste according to item 13.
Ensure adequate ventilation.
6.4 Reference to other sections
No dangerous substances are released.
See Section 7 for information on safe handling.
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.

## **SECTION 7: Handling and storage**

## 7.1 Precautions for safe handling

Ensure good ventilation/exhaustion at the workplace. Open and handle receptacle with care. Prevent formation of aerosols.

Information about fire - and explosion protection: Keep respiratory protective device available.

#### 7.2 Conditions for safe storage, including any incompatibilities

Storage:

Requirements to be met by storerooms and receptacles: *No special requirements.* Information about storage in one common storage facility: *Not required.* Further information about storage conditions: *Keep container tightly sealed.* Storage class: *6.1 D* 7.3 Specific end use(s) *No further relevant information available.* 

## **SECTION 8: Exposure controls/personal protection**

#### 8.1 Control parameters

**Ingredients with limit values that require monitoring at the workplace:** The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

Additional information: The lists valid during the making were used as basis.

#### 8.2 Exposure controls

Appropriate engineering controls *No further data; see item 7.* Individual protection measures, such as personal protective equipment

## General protective and hygienic measures:

Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing Wash hands before breaks and at the end of work. Store protective clothing separately. Avoid contact with the eyes. Avoid contact with the eyes and skin.

## **Respiratory protection:**

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device.

(Contd. on page 4)

Version 3 (replaces version 2)

Trade name: Standard solution PO4-P

Hand protection

Protective gloves

To avoid skin problems reduce the wearing of gloves to the required minimum. Only use chemical-protective gloves with CE-labelling of category III. The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

## Material of gloves

Nitrile rubber, NBR Chloroprene rubber, CR

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

## Penetration time of glove material

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

#### **Eye/face protection**

Tightly sealed goggles

Body protection: Protective work clothing

## **SECTION 9: Physical and chemical properties**

| 9.1 Information on basic physical and chemical properties |                 |  |  |  |
|-----------------------------------------------------------|-----------------|--|--|--|
| General Information                                       |                 |  |  |  |
| Physical state                                            | Fluid           |  |  |  |
| Colour:                                                   | Colourless      |  |  |  |
| Odour:                                                    | Odourless       |  |  |  |
| Odour threshold:                                          | Not determined. |  |  |  |
| Melting point/freezing point:                             | Undetermined.   |  |  |  |
| Boiling point or initial boiling point and boiling        |                 |  |  |  |
| range                                                     | 100 °C          |  |  |  |
| Flammability                                              | Not applicable. |  |  |  |
| Lower and upper explosion limit                           |                 |  |  |  |
| Lower:                                                    | Not determined. |  |  |  |
| Upper:                                                    | Not determined. |  |  |  |
| Flash point:                                              | Not applicable. |  |  |  |
| Decomposition temperature:                                | Not determined. |  |  |  |
| pH at 20 °C                                               | 1-3             |  |  |  |
| Viscosity:                                                |                 |  |  |  |
| Kinematic viscosity                                       | Not determined. |  |  |  |
| Dynamic:                                                  | Not determined. |  |  |  |
| Solubility                                                |                 |  |  |  |
| water:                                                    | Fully miscible. |  |  |  |
| Partition coefficient n-octanol/water (log value)         | Not determined. |  |  |  |
| Vapour pressure at 20 °C:                                 | 23 hPa          |  |  |  |
| Density and/or relative density                           |                 |  |  |  |
| Density at 20 °C:                                         | 1 g/cm³         |  |  |  |
| Relative density                                          | Not determined. |  |  |  |
| Vapour density                                            | Not determined. |  |  |  |
|                                                           |                 |  |  |  |

| Desensitised explosives                       | Void                                          |

## **SECTION 10: Stability and reactivity**

**10.1 Reactivity** No further relevant information available.

10.2 Chemical stability

Thermal decomposition / conditions to be avoided:

No decomposition if used according to specifications.

10.3 Possibility of hazardous reactions No dangerous reactions known.

**10.4 Conditions to avoid** *No further relevant information available.* 

**10.5 Incompatible materials:** No further relevant information available.

10.6 Hazardous decomposition products: No dangerous decomposition products known.

# **SECTION 11: Toxicological information**

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008 Acute toxicity

LD/LC50 values relevant for classification:

CAS: 10043-35-3 boric acid

Oral LD50 2,660 mg/kg (rat)

Skin corrosion/irritation Causes severe skin burns and eye damage.

Serious eye damage/irritation Causes serious eye damage.

Reproductive toxicity May damage fertility. May damage the unborn child.

(Contd. on page 6)

<sup>-</sup> IND ----

according to 1907/2006/EC, Article 31

Printing date 31.03.2022

Version 3 (replaces version 2)

Trade name: Standard solution PO4-P

## 11.2 Information on other hazards

Endocrine disrupting properties

None of the ingredients is listed.

# **SECTION 12: Ecological information**

## 12.1 Toxicity

Aquatic toxicity: No further relevant information available.

12.2 Persistence and degradability No further relevant information available.

12.3 Bioaccumulative potential No further relevant information available.

12.4 Mobility in soil No further relevant information available.

## 12.5 Results of PBT and vPvB assessment

**PBT:** Not applicable.

vPvB: Not applicable.

**12.6 Endocrine disrupting properties** The product does not contain substances with endocrine disrupting properties.

12.7 Other adverse effects

Additional ecological information:

## General notes:

Not hazardous for water.

Must not reach sewage water or drainage ditch undiluted or unneutralised.

Rinse off of bigger amounts into drains or the aquatic environment may lead to decreased pH-values. A low pH-value harms aquatic organisms. In the dilution of the use-level the pH-value is considerably increased, so that after the use of the product the aqueous waste, emptied into drains, is only low water-dangerous.

# **SECTION 13: Disposal considerations**

## 13.1 Waste treatment methods

Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system.

**Uncleaned packaging:** 

**Recommendation:** Disposal must be made according to official regulations. **Recommended cleansing agents:** Water, if necessary together with cleansing agents.

# **SECTION 14: Transport information**

| 14.1 UN number or ID number                      |                 |
|--------------------------------------------------|-----------------|
| ADN, IMDG, IATA                                  | Void            |
| 14.2 UN proper shipping name                     |                 |
| ADR, ADN, IMDG, IATA                             | Void            |

# **SECTION 15: Regulatory information**

# 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture Labelling according to Regulation (EC) No 1272/2008

The product is classified and labelled according to the CLP regulation.

Revision: 31.03.2022

(Contd. of page 5)

Version 3 (replaces version 2)

## Trade name: Standard solution PO4-P

Hazard pictograms

Signal word Danger

#### Hazard-determining components of labelling: boric acid Hazard statements H314 Causes severe skin burns and eye damage. H360FD May damage fertility. May damage the unborn child. **Precautionary statements** P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower]. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P310 Immediately call a POISON CENTER/doctor. P321 Specific treatment (see on this label). P405 Store locked up. P501 Dispose of contents/container in accordance with local/regional/national/international

regulations.

#### Directive 2012/18/EU

Named dangerous substances - ANNEX I None of the ingredients is listed.

#### National regulations:

## Other regulations, limitations and prohibitive regulations

Substances of very high concern (SVHC) according to REACH, Article 57

CAS: 10043-35-3 boric acid

15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

# **SECTION 16: Other information**

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

#### 16.1 Relevant phrases

H360FD May damage fertility. May damage the unborn child. **16.3 Recommended restriction of use**
