according to WHS Regulations Printing date 01.04.2022

Version 4 (replaces version 3)

Endress+Hauser 🖪

People for Process Automation

Revision: 01.04.2022

SECTION 1: Identification

Product identifier

Trade name: cleaner CY820 oxidizing Synonym: cleaning concentrate

Article number: CY820-1+UA

Relevant identified uses of the substance or mixture and uses advised against No further relevant information available.

Application of the substance / the mixture Laboratory chemicals Disinfectant

Details of the supplier of the safety data sheet Manufacturer/Supplier: Endress+Hauser Conducta GmbH+Co. KG Dieselstraße 24 D-70839 Gerlingen

Further information obtainable from: Phone: +49 (0)7156 209-10117 E-Mail: MSDS.PCC@endress.com

Regional representation: Endress+Hauser Australia Pty Ltd 16 Giffnock Avenue Macquarie Park, NSW 2113 Australia

Phone: 1300 363 707 Phone: +61 2 8877 7000

Emergency telephone number: Poison Hotline: 13 11 26

SECTION 2: Hazard(s) Identification

Classification of the substance or mixture

flame over circle

Ox. Lig. 2 H272 May intensify fire; oxidizer.

corrosion

Skin Corr. 1A H314 Causes severe skin burns and eye damage. Eve Dam. 1 H318 Causes serious eye damage.

Acute Tox. 4 H302 Harmful if swallowed.

Label elements **GHS** label elements The product is classified and labelled according to the Globally Harmonised System (GHS).

- AUS -

according to WHS Regulations

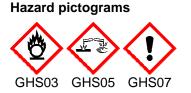

Printing date 01.04.2022

Version 4 (replaces version 3)

Trade name: cleaner CY820 oxidizing

(Contd. of page 1)

Revision: 01.04.2022

Signal word Danger

Hazard-determining components of labelling: hydrogen peroxide solution peracetic acid acetic acid Hazard statements May intensify fire; oxidizer. Harmful if swallowed. Causes severe skin burns and eye damage. **Precautionary statements** Take any precaution to avoid mixing with combustibles. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower]. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor. Specific treatment (see on this label). Store locked up. Dispose of contents/container in accordance with local/regional/national/international regulations. Other hazards The product does not contain any organic halogen compounds (AOX), nitrates, heavy metal compounds or formaldehvdes. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable.

SECTION 3: Composition and Information on Ingredients

Mixtures

Description: Mixture of substances listed below with nonhazardous additions.

Dangerous compor	nents:	
	hydrogen peroxide solution	20-40%
EINECS: 231-765-0	Ox. Liq. 1, H271; ♦ Skin Corr. 1A, H314; ♦ Acute Tox. 4, H302; Acute Tox. 4, H302; Acute Tox. 4, H332	
CAS: 64-19-7	acetic acid	5-10%
EINECS: 200-580-7	🚸 Flam. Liq. 3, H226; 🚸 Skin Corr. 1A, H314; 🕩 Acute Tox. 4, H312	
CAS: 79-21-0	peracetic acid	2-6%
EINECS: 201-186-8	♦ Flam. Liq. 3, H226; Self-react. C, H242; Org. Perox. D, H242; ♦ Skin Corr. 1A, H314; ♦ Acute Tox. 4, H302; Acute Tox. 4, H312; Acute Tox. 4,	
	H332	

Additional information: For the wording of the listed hazard phrases refer to section 16.

SECTION 4: First Aid Measures

Description of first aid measures

General information:

Immediately remove any clothing soiled by the product.

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

After inhalation: In case of unconsciousness place patient stably in side position for transportation.

(Contd.

according to WHS Regulations

Printing date 01.04.2022

Version 4 (replaces version 3)

Trade name: cleaner CY820 oxidizing

Revision: 01.04.2022

(Contd. of page 2)

After skin contact:

Call a doctor immediately. Immediately wash with water and soap and rinse thoroughly. Immediately rinse with water.

After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor.

After swallowing:

Call for a doctor immediately. Drink plenty of water and provide fresh air. Call for a doctor immediately. **Most important symptoms and effects, both acute and delayed** No further relevant information available.

Indication of any immediate medical attention and special treatment needed No further relevant information available.

SECTION 5: Fire Fighting Measures

Extinguishing media

Suitable extinguishing agents: Use fire extinguishing methods suitable to surrounding conditions. For safety reasons unsuitable extinguishing agents: no further information Special hazards arising from the substance or mixture Carbon monoxide (CO) Advice for firefighters No further relevant information available. Protective equipment: Wear self-contained respiratory protective device.

SECTION 6: Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation Use respiratory protective device against the effects of fumes/dust/aerosol. Wear protective equipment. Keep unprotected persons away. Wear protective clothing. **Environmental precautions:** Dilute with plenty of water. Do not allow to enter sewers/ surface or ground water. Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Use neutralising agent. Dispose contaminated material as waste according to item 13. Ensure adequate ventilation. **Reference to other sections** See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

SECTION 7: Handling and Storage

Precautions for safe handling

Avoid splashes or spray in enclosed areas. Keep away from heat and direct sunlight. Information about fire - and explosion protection: Fumes can combine with air to form an explosive mixture. Emergency cooling must be available in case of nearby fire.

Conditions for safe storage, including any incompatibilities

Storage:

Requirements to be met by storerooms and receptacles: Store only in the original receptacle. **Information about storage in one common storage facility:** Store away from oxidising agents.

according to WHS Regulations

Printing date 01.04.2022

Version 4 (replaces version 3)

Revision: 01.04.2022

Trade name: cleaner CY820 oxidizing

Store away from reducing agents. **Further information about storage conditions:** Store in a cool place. Keep container tightly sealed. **Storage class:** 5.1 B **Specific end use(s)** No further relevant information available.

SECTION 8: Exposure controls and personal protection

Control parameters

Ingredients with	Ingredients with limit values that require monitoring at the workplace:		
CAS: 7722-84-1	hydrogen peroxide solution		
WES (Australia)	Long-term value: 1.4 mg/m³, 1 ppm		
CAS: 64-19-7 acetic acid			
WES (Australia)	Short-term value: 37 mg/m³, 15 ppm Long-term value: 25 mg/m³, 10 ppm		
IOELV (EU)	Short-term value: 50 mg/m³, 20 ppm Long-term value: 25 mg/m³, 10 ppm		

Additional information: The lists valid during the making were used as basis.

Exposure controls Appropriate engineering controls *No further data; see item 7.* Individual protection measures, such as personal protective equipment

General protective and hygienic measures:

Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing Wash hands before breaks and at the end of work. Avoid contact with the eyes. Avoid contact with the eyes and skin.

Respiratory protection: Not required.

Hand protection

Protective gloves

To avoid skin problems reduce the wearing of gloves to the required minimum. Only use chemical-protective gloves with CE-labelling of category III. The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Material of gloves

Butyl rubber, BR Nitrile rubber, NBR Chloroprene rubber, CR The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

SECTION 9: Physical and Chemical Properties

Information on basic physical and chemical prop	perties
General Information	
Physical state	Fluid
Colour:	Colourless
Odour:	Acrid
Odour threshold:	Not determined.
Melting point/freezing point:	Undetermined.
Boiling point or initial boiling point and boiling	
range	Undetermined.
Flammability	Not applicable.
Lower and upper explosion limit	
Lower:	Not determined.
Upper:	Not determined.
Flash point:	> 60 °C
Decomposition temperature:	Not determined.
pH at 20 °C	0.5-1.5
Viscosity:	
Kinematic viscosity	Not determined.
Dynamic:	Not determined.
Solubility	
water:	Fully miscible.
Partition coefficient n-octanol/water (log value)	Not determined.
Vapour pressure at 20 °C:	23 hPa
Density and/or relative density	25 HF a
Density at 20 °C:	1 12 a/om3
	1.12 g/cm ³ Not determined.
Relative density	
Vapour density	Not determined.
Other information	
Appearance:	
Form:	Fluid
Important information on protection of health	
and environment, and on safety.	
Auto-ignition temperature:	Product is not selfigniting.
Explosive properties:	Product does not present an explosion hazard.
	Not determined.
Solvent content:	
Organic solvents:	9.0 %
Water:	58.0 %
Solids content:	0.0 %
Change in condition	0.0 //
Evaporation rate	Not determined.
Evaporation rate	Not determined.
Information with regard to physical hazard	
classes	
Explosives	Void
Flammable gases	Void
Aerosols	Void
Oxidising gases	Void

Bioaccumulative poter	ntial No further relevant information available.	
Mobility in soil No furth	ner relevant information available.	
Results of PBT and vP	vB assessment	
PBT: Not applicable.		
vPvB: Not applicable.		
Endocrine disrupting p	properties	
The product does not co	ontain substances with endocrine disrupting properties.	
Other adverse effects		
Additional ecological in	nformation:	
General notes:		
Water hazard class 1 (G	German Regulation) (Self-assessment): slightly hazardous for water	
Do not allow undiluted p system.	roduct or large quantities of it to reach ground water, water course or sewage	;
	water or drainage ditch undiluted or unneutralised.	
	unts into drains or the aquatic environment may lead to decreased pH-values. organisms. In the dilution of the use-level the pH-value is considerably increa	

SECTION 13: Disposal considerations

Waste treatment methods Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system.

so that after the use of the product the aqueous waste, emptied into drains, is only low water-dangerous.

Uncleaned packaging:

Recommendation: Disposal must be made according to official regulations. **Recommended cleansing agents:** Water, if necessary together with cleansing agents.
