

Special Documentation

Liquiline M CM42-*V*****

Two-wire transmitter for hazardous areas

The product Liquiline M CM42-*V***** has the following text in the order system:

ATEX/NEPSI II 3G Ex nA[ic] IIC T6

For China the protection method nA is no longer available and the product has to be qualified for a new protection method. For ATEX the protection method nA is still available.

This product, delivered with the order option "V", bears only the ATEX marking on the nameplate:

⊕ II 3G Ex nA[ic] IIC T6

and is suitable for use according to ATEX only.

It must not be used in hazardous areas in China!
