- Yes, reason:

- No, reason:

Manufacturer Information

for users regarding software updates
(following the NAMUR recommendation 53)

It is not necessary to update the software to the new version, when a project is properly running with the existing one. New projects should be installed from November 2006 on only with the new version on customer site, even when the engineering was done on the previous version.

If you update the software, please take in mind, that the license software doesn't have to be updated. Updating the license software, can damage the liense.
